

**Course Overview:**

The HR function in any modern organization cannot continue to play an implementation role only. It has to present a strategic approach to management in order to truly become a strategic partner in the business. This course will help you learn about the tools and techniques used in drafting and developing HR strategies. It will also equip you with the knowledge and the skill you need to translate such strategies into actions.

**Course Objective:**

By the end of the course, participants will be able to:

- List the main cycles in Human Resources (HR) and the critical steps in each
- Define strategic HR management and draft an HR strategy
- Assess employee morale and determine a formula for calculating it objectively
- Differentiate between types of turnover and determine how each should be calculated
- List the main types of performance management and appraisal rating systems and how and when to use each

**Course Outline:**

The main cycles in human resources management

Strategic HR management

Measuring human resources

Employee turnover

Managing employee performance

**Who Should Attend:**

Human Resources managers and senior professionals, specialists, team leaders, and business partners in the function who seek to broaden their knowledge and improve their skills in the key functions of HR as well as those who are responsible for evaluating HR and its effectiveness in the organization. The course is also suitable for those employees who are targeted for development or promotion within the HR function.
