

**Course Overview:**

This course provides the participants with the ability to work safely, particularly when they are off the ground and also explains the importance of design implementation and compliance of caution and danger tags/signs.

**Course Objective:**

This course provides the participants with the ability to work safely, particularly when they are off the ground and also explains the importance of design implementation and compliance of caution and danger tags/signs.

**Course Outline:**

- Introduction
- Fall protection systems equipment standards
- Design of different types of signs
- Danger signs
- Caution signs.
- Design features and choice of wording

**Who Should Attend:**

The course is recommended for technicians, engineers, foremen, safety engineers and personnel.

**Training Language:**

EN / AR

**Training Methodology:**

- Presentation & Slides
- Audio Visual Aids
- Interactive Discussion
- Participatory Exercise
- Action Learning
- Class Activities
- Case Studies
- Workshops
- Simulation
