

Course Overview:

Skills of Investigation & Interrogation of Security are two key elements for the successful development and progression of any leading business. Effective security management, personnel and systems must integrate and support the business in order to secure key assets, rather than restrict its operation. As quickly as companies develop, so too do the risks and threats that they face.

Course Objective:

- How you could have avoided the situation in the first place.
- Best management practice and how to apply these principles
- Planning security projects and implementing these effectively
- Creating a protection programme to protect intellectual property in addition to physical assets
