Course Overview:

The primary goal of security awareness is to reduce loss, and this happens when good security behaviors become reflex actions for your staff.
The best awareness programs motivate the workforce by showing them that their behaviors are the most important element in preventing loss.
Security Awareness Training is designed to educate users on the appropriate use, protection and security of information, individual user responsibilities and ongoing maintenance necessary to protect the confidentiality, integrity, and availability of information assets, resources, and systems from unauthorized access, use, misuse, disclosure, destruction, modification, or disruption.
